

Double Bar Graphs

During which month did Tokyo have more rainy days than Seoul?

Compare the bar graph for Tokyo and the bar for Seoul during each month.

During the month of July, Tokyo had more rainy days than Seoul.

Yuki made a table to show the scores for his basketball team, TKS Screammers, and the opposing team in the first three games of the season. Use the table to make a double bar graph on some graph paper. Use the graph to answer each question.

Points Scored in Each Game			
Team	Game 1	Game 2	Game 3
Screammers	47	51	63
Opponents	42	55	57

1. What interval did you choose for your graph? Explain your choice.

Problem Solving

2. During which game did the opponents score more points than the TKS Screammers? Explain how you found your answer.
